Dear Lucy,

Kindly reaching out in regards to the DRI review tonight of the MV Hospital Project slated for Edgartown / VH Road. My wife Emily and I own **[50 Teaberry Lane]** and we are not able to attend the hearing this evening, but we wish to note that our continued objection from numerous Edgartown planning board hearings remains the same.

The project is ill planned as a location to house such a large scale development and the fact that other properties may be better accommodating closer and at a better proximity to Edgartown waste water should be considered. Our neighborhood itself and the adjoining divisions are remarkably residential at heart.

Failure to recognize the impact of such a development the hospital is pursuing is a gross digression from the spirit of Martha's Vineyard and the hard working families that comprise the surrounding neighborhoods. We collectively do not see the logic of the placement of this proposed development and we are pursuant the Commission reject this project.

As such we formally object to the MV Hospital plans and wish that our lack of support be noted in the hearing this evening.

Many thanks,

Rob Ianelli and Emily (Flake) Ianelli
