To Whom it May Concern,

I am in favor of the Southern Tier Project due to the amount of affordable year round housing here on Martha's Vineyard. It is very hard to see people having to find respite homeless and with no proper facilities being hounded by the police daily creating so much stress for many long term island people young and old. This is a perfect spot with so many helpful services for people who work in our community to reside. I hope we all can get behind this building initiative.

Thank you,

Julianne Vanderhoop
