Hello Lucy,

We own/live @ 20 Narragansett Ave and will be on the zoom tonight.

We have concerns about the parking capacity we already have on our block.

If this was just another residential home we would not be concerned.

The Inn claims employees will reside @ 10 Pequot are they claiming this is a lifetime agreement for the 3 employees? I doubt it. And where will they park?

Right now Pequot inn employees park on the Waban street side of the lot, where will they park now? In front of our houses?

They claim to be working with the town to have a drop off spot for the bus or shuttle? Does this mean they are planning on having "no parking" in front of their entrance like the Narragansett house does? Which is really public parking.

And discouraging guests not to bring vehicles? Please...

People as well as myself park right in front of my walkway and my neighbors. This should be the same for the Inn.

Our block has 12 houses and 6 of them are owner occupied, 6 are rental houses and parking is always a problem for the owner occupied in July and August.

Thank you

John & Gina Albanese
