

Dear MVC Commissioners,

This is a letter of support for Northern Pines Farm Subdivision dri 740.

I support John and Janet Packer's plan to subdivide their farm for their family. This is a stunning family property, a working family farm. This proposal to create house lots for their children and maintain a large portion as a working farm is a perfect balance of caring for their family while honoring the history of the land. The land is what it is today because of the care of the Packers.

Please support this subdivision.

Sincerely

Joe Mikos
