Subject: Surke Meadow Subdivision

Hello Lucy,

I am unable to attend the live hearing tonight as I will be putting my kids to bed at that time. However, I wanted to submit written testimony in advance of the hearing.

The commission should decline the proposal as this area is rapidly being overbuilt (with a separate project underway next door on Division Road and the already-built Island Grove neighborhood. Although I am sure the nitrogen impact checks out, this area of the island cannot handle any further development/subdivision.

Thanks,
Christopher Currier
