Dear MVC,

Paul Bangs and his brothers are up for subdivision approval of their property by Old Coach Road. A path that is informally used over the property provides a critical link eventually between Old County Road and State Road. I believe the Commission would do well to request an easement for this path as part of approval for the subdivision.

Walking paths in and around developed areas are a way to maintain a semblance of rural quality. They also encourage healthy walking and cycling.

Many thanks for your fine efforts for The Vineyard.  
We appreciate your work.

Sincerely,
