

Dear MV Commission,

I am sending you a copy of the letter I sent to Town of West Tisbury in tact, no changes.

Some points, I ask you to expand to your scope., for example, ground cover and disturbance to the species we share this land with.

There are so many more individual points that my neighbors will speak to so much more eloquently.

Please know that their words are my words, they speak for me.

I do know that if the Bangs proposal goes thru without compromise, it opens up for this area to be a metropolis!, There are alternatives.

It will forever change the fabric of this area organically, environmentally, socially, and in ways that we can't even imagine.

Thank you for taking your time to hear us,

Pamela Danz
