Dear Planning Board:

I wish to respectfully ask the planning board not to allow any subdivision for the of the above named

Since I will not be able to attend the zoom meeting of your board on April 15, 2023, when a proposed subdivision affecting Old Coach Road will be discussed, I am sending this letter by email.

The West Tisbury Bylaws Committee have done a wonderful job of protecting ancient ways and footpaths, and I request that the committee be involved in your deliberations. Their input will be very valuable.

It appears that the access to the proposed subdivision will be on Old Coach Road. Most of this original footpath has been lost to development and is a modern road with vehicles. This remaining portion is a protected footpath which I and others constantly use and enjoy for access to the ancient way. An increase in vehicle traffic caused by allowing the footpath to become a modern road will change the nature of this environment, and could affect the safety of walkers, children, and pets.

Respectfully submitted,
Joel Weintraub
