Subject: Bradley Square revised plan

I attended the last few meetings including the one that proposed the downsizing and increasing of the parking availability. My position is that it is still too big, will make for traffic problems and is a poor use of C.P.A. funds. If it was just for the rebuilding of the church that would be one thing, but I feel that has been used as a front for an extremely large special interest group. I did not believe this is the place for this project before, or do I believe that it is the place now that it has been "modified". Too much in too small an area. I am unable to be there tonight since it was changed to the 14th so please enter me as a NO vote on the revised plans as they stand
