

Oct 1st 2011

To the MVC
attention: Paul Foley

Having just viewed your 'final' public hearing
I'm weighing in.

As a pedestrian, bicyclist, occasional VTA bus rider
and trucker (tiny Toyota) I wish you people had
the power to force the applicant to withdraw
the Roundabout plan/application # 633.

Not only is it lacking design sense, safety to the walking
and biking public, the project is unnecessary.

No roundabout is vital to our community no matter
what the 'massals' of the state are lead to believe.

Having lived and paid property taxes in OB for over 40 years
do I have a vote?!

If you as a board control the destiny of the old blinker
site why not 'stall' the ill conceived roundabout
plan for about 40 years plus ... nothing would
make me happier.

Sincerely,

Deborah L Dean
