

A Form Letter endorsing the Verizon Wireless Cell Tower at the Doane property on New Lane in West Tisbury was submitted by the Applicant stating:

"My long time neighbor, Robert Doane, has advised me that the Doane family has been in discussions with Verizon Wireless concerning Verizon's desire to lease a small area in the high woods approximately 100 feet behind (east) of their barn for the purpose of installing a Camouflaged Cell Tower Communication site (Map 31, Lot 48 ). Verizon just recently submitted the Plan to the Town of West Tisbury for approval. Knowing that Cell Phone Service in this area is at best barely functional and understanding the location for this site is greatly obscured by the surrounding high woods I encourage the Board to approve the project when it comes up before the Board for review."

This was signed by the following individuals and was submitted by the Applicant:
