Subject: Rotary at the Blinker/4way Stop...?

Subj: Rotary at the Blinker/4way Stop

I understand that there will be a hearing on this subject tomorrow. Please read the following into the record as I will not be on the Island.

To the M.V.C. Commissioners

For the two months out of the year that there is a significant back up on the Edgartown-Vineyard Haven Road, and that is usually only at commuter times or VH ferry off load times, I am not even sure doing anything is worth the money unless there is a safety issue.

The only issue here is just that, a safety issue. If rotaries can be proven to be safer than a four way STOP intersection then that is what I would vote for. I do not want to see a stop light there, if it is at all possible to avoid it.

Thank you.

Ann Hoar Floyd
