**Subject:** roundabout

I won't be able to make it tonight but I wanted to register my strong opposition to the roundabout and my strong support for referring it to the commission. This is not an OB issue but one that effects all the towns.. As a WTisb. resident, I go thru the blinking light every day and find that I never have to wait. If there is a roundabout, the traffic between VH and Etown will dominate and it will be very difficult for those coming from Barnes Rd to access the intersection. I am from DC, roundabout city, and know from experience that roundabouts are hell on pedestrians and bikers and on drivers encountering them for the first time. I think things are working fine as they are. If it ain't broke don't fix it. On the other hand, as to OB town government, that might be a different story. Paul Magid
