To: Alex Elvin <elvin@mvcommission.org>;

Dearest Commission,

It is important that the Renovation up Shearer Cottage is approved for the historical appreciation of the community and the significant history of African Americans on island and seasonal Vineyarders . This community of African Americans have a long standing history of contributing to the heart beat of the island. Especially, the long historical family of the Jackson/Shearer Family! Currently, the Historical artifacts of Shearer Cottage , along with many other historical monuments are now at the The Smithsonian / African American Museum of History/ Culture It's an awesome experience to view this information in our nations Capital.

Regards,

Dee Marshall  
CT - Summer Resident
