* The US Department of Housing & Urban Development (HUD) determines Median Family Income (MFI) for each County in the US. This figure is the basis of the 100% column which defers from other figures issued and used for a variety of housing program on Martha’s Vineyard including those administered through the Executive Office of Housing & Livable Communities (EOHLC), and the Mass Housing Partnership (MHP).

** The 240% income column is included only for reference to Housing Bank related planning and discussion.

Program specific methodologies account for mathematical differences between columns within the chart.
