RE: EDGARTOWN S&S REVISED LANDSCAPE PLAN

Dear Mr. Finn,

The Edgartown Beautification Committee is writing to convey approval of the updated Landscape Design & Plan for the Edgartown Stop & Shop as submitted by VHP Project Manager Renee Codega. We appreciate that throughout this process our recommendations for a more classic Edgartown garden look have been considered and implemented, with plant selections that will complement nearby garden areas, as well as integrate with them.

We look forward to supporting the Planning Board and the landscape architects and contractors throughout this process in any way we can. We would also like to strongly request that a local landscaping company be hired to implement this design so that, when the warranty is over, an experienced and invested island contractor can continue to maintain the vision that was brought forth with this plan.

Sincerely,

The Edgartown Beautification Committee

Renee Clermont
