Dear Members of the Martha's Vineyard Commission,

We are writing to oppose the proposed expansion of the Hob Knob Inn.

While our focus is to support the local community and their growing businesses, the new development plans are unsympathetic to the surrounding neighborhood. The project will not only cause a substantial detriment to residential property values, but will completely disrupt the peaceful charm of our tight-knit community with excessive noise and traffic.

As lifelong residents of Martha's Vineyard, my wife and I want nothing more than to maintain and support the historic beauty of the Edgartown village community. The proposed expansion of the Hob Knob Inn however, threatens the quiet enjoyment of the neighborhood.

I kindly request you take the welfare of this treasured community and its residents into consideration when assessing this proposal. Please do not allow this expansion.

Geoffrey and Nancy Caraboolad
35 Planting Field Way
Edgartown, MA
