Martha's Vineyard Commission

I am writing regarding The Harbor View Hotel expansion into the surrounding neighborhood.

My understanding is that because the Hotel is in a residential zone and Historic district it operates under certain special agreements with the Town of Edgartown and its neighbors in Edgartown. Please look at the agreements and waivers that have been granted. Are they being followed? Are they being 'stretched' or ignored? Is everyone adhering to the rules laid down? The Hotel wishes to expand its services. Will these expansions be within the rules as understood today? How will they effect the noise levels and spaces for parking and waterfront usage, ie 119 N. Water Street property?

Martha's Vineyard is a unique community and environment and has been protected and treasured by everyone here. It is up to you The Martha's Vineyard Commission to over see all impacts to any proposed development changes on the Island. I have great faith in the Commission to be fair and act with integrity and honor.
