Subject: 2016-10-05 (to group) Santander Stone Bank Roof alteration need DRI Review

Attachments: 2016-10-05 (to group) Santander Stone Bank Roof alteration need DRI Review.zip; DRI

Checklist - version 12.pdf

Hello, all,

I need your urgent attention about the Stone bank in Main street, VH.

The Santander Bank roof tiles have been removed without the proper (hisotorical) reviews (see pics) and are to be replaced with the red Asphalt shingles, and, not the same previous Spanish Tiles.

This alteration should trigger DRI and should be reviewed at MVC.

The current roof work has to be stopped or redone to the original style.

See the "current" MVC-DRI Checklist (Version 12)

MVC DRI checklist : (download attached PDF)

(Page 9)

8.2 Demolition or Exterior Alteration of Historic Structures:

The demolition or exterior alteration of any structure that:

- i) has been identified as having historic significance by a local historic commission or architectural commission, by a general plan of the Town, by the Massachusetts Historical Commission, or is listed with the National or Massachusetts Registers of Historic Places; or
- ii) is more than a hundred years old with MVC concurrence. This excludes structures located within: established historic districts and are already protected by local historical or architectural commission review that has the legal authority to condition and permanently deny an application .or
- the Martha's Vineyard Camp Meeting Association's Wesleyan Grove National Historic Landmark District.

This signature building and several other buildings in town were erected by the young entrepreneur, **William Barry Owen**, (known for HMV, VICTOR, Owen Park), and, the son of an Artic Whaler Captain Leander Owen, linked with Historic William Street, Main street history and Island genealogy, and, this has been the most photographed single structure in VH, over the century, in post cards and in many other formats.

Your Urgent Help/attention is needed to "correctly preserve the proud history of Vineyard Haven".

In this case, the historical significance will be displaced and diminished by the changing ownership, who doesn't identify its importance to Vineyard Haven, and our proud community. The bank chose this poor conclusion of the downgraded, generic asphalt roofing.

(Stop the Historical obsoletion)

On the island.

lots of significant buildings had been removed or hacked permanently from its glorious days, outweighed by the practical short sight of the ownership of the time.

Today, we are struggling with the obsolete, or disconnected streetscape due to these hacking/demolition in VH Main Street (Leslie's, MV Savings Bank site, Havenside APT sites) and in OB Circuit Ave (Reliables side). And Seaview Ave/OB Police Dept. site.

1

(Helping to fund?)

In the past months,

I have contacted the Santander bank managers to report the rotting brackets off Main Street, and, asked them to apply for CPC fund or any other state fund to have the buildings be either listed or regulated but funded and maintained properly. But, as their bank job positions are unstable, nobody in that branch seems to advocate the importance of the building as we see.

We need to stop this downgraded roof work and help to restore the history building properly.

Regards,

HS
