16 Union 75 Main Approval Letter.pdf;

Attached is the approval letter for 75 Main Street. The flow was not added to the letter. I now remember that this was the first property where we are no longer giving flow to the applicant, but instead granting approval to tie in based on the information on the application. I think I had already told you about how we are no longer discussing flow grants with the applicants anymore because flow numbers only are for me to run the plant. But to answer your question, Sam Dunn was calculated at 2,285 GPD and was granted approval to tie into the system. If you have any more questions, please feel free to call me anytime.

Respectfully,

Jared A. Meader
