To: Alex Elvin <elvin@mvcommission.org>;

I am writing in support of the field project at the High School.

We moved here from New Jersey in 2011, and the town we left had just recently installed many turf fields. The fields are unbelievable to play on. When we had grass, we usually had to wait 2-3 days after a rain before we could play. With the turf, our kids could play all the time, even during a light rain. The fields are “easy” on the legs. Because they are soft, it is easier to stop, slide or fall, and not get hurt.

I’ve coached at the HS for 8 years now. I strongly believe that athletics are part of the curriculum, and that encouraging kids to participate in athletics is a great thing for their high school experience. Thank you for your consideration.
