To: Alex Elvin <elvin@mvcommission.org>;

Mr. Elvin,

I hope this message finds you well. My name is Kendall, I have been traveling to Martha's Vineyard since I was born, spending every summer on the island.

Shearer Cottage and its importance to the rich history that exists on the island is very meaningful to not only my experience on the Vineyard, but also my identity.

Shearer's renovation is a gigantic step in preserving what was started 100 years ago for the next 100 years to come. I encourage you to strongly consider this renovation, as the past 6 generations, and the many to come, are depending on it.

This is bigger than us all.

Kindly,

--
