

RE: Tower Colocation

Kimberly Revak <krevak@clinellc.com>

Fri 10/29/2021 4:59 PM

To: Alex Elvin <elvin@mvcommission.org>;

The problem I am having is, although I know battery powered generators exist, they are not something used by this industry (at least not yet). It is not something that AT&T can accommodate. The generator is an important part of the facility. During a power outage, cell coverage is critical not only for consumer use but also emergency services (especially with more and more people not having landlines anymore). Without backup power – the tower would be down and no cellular calls could be made or received in this area during an outage.

However, AT&T would not want the project to be denied just because of the generator. They would adjust the design to remove (if needed by the MVC to approve).

I am trying to find some history on the original approval for Verizon, to see what they are using. My first looks seems to show no generator with them also (so maybe it is just something you guys didn't and won't allow?). Do you know the history? If diesel or propane generators are just not allowed at all in Martha's Vineyard – I will have the proposed design revised.

Thanks. This was an issue with another cell tower modification that caused it to be denied, so I want to make sure there is enough information.

I am working to get a better statement from ATC or AT&T about the backup power requirements. I have never seen anything but diesel or propane generators used for cell tower but I am asking for more information for you.

Thanks for these responses. In regard to the battery backup, what the commission will likely want to know is whether a battery powered generator (as a primary generator) is feasible as an alternative to the diesel generator. Can American Tower please provide a statement to that end?

You can also try 2370, 877, 518, 6937 -- I'm pretty sure I always use 2370.

Hi Kimberly,

Is it still OK if we take some photos of the tower at 21 New Lane today? I believe you were going to share the access information, but if that's not available, could we take some photos from outside the compound?

Thanks,

Alex

Alex,

Forget an attachment. Please find attached the Letter of Authorization from the Tower Owner (American Tower Corporation). Please add to my application.

What is the next step for my site (21 New Lane, Vineyard Haven). Can we still have a call on Tuesday, Oct 26 at 11:00AM?

Hi Alex – I have attached the information for my site for your review. It includes the following:

- Referral Letter from Town of West Tisbury
- DRI Application Form (Filled out to the best of my ability). Please let me know if I need to add something more
- Project CD
- Project Structural Analysis (SA)
- Project Mount Analysis (MA)

Note: 91 Edgartown is George site not my. My site is at 21 New Lane, Vineyard Haven

Hi Kimberly,

Were you still planning to send the plans for 91 Edgartown-Vineyard Haven Road this week? I would need to distribute those to staff before Friday to prepare for the meeting on Monday. Let me know if you have any questions.

Thanks,

Alex
