To MV Commissioners and Staff,

We respectfully request that Commissioner Brian Packish recuse himself from the upcoming Shearer Cottage decision (DRI Application 712). Further, we ask that his previous testimony on DRI Application 712 be stricken from the record. It has come to our attention that Commissioner Packish is the owner of several short-term rental properties in Oak Bluffs, and we believe that his decision(s) with regard to the Shearer Cottage Application may be compromised by those business interests.

Thank you for your time and careful consideration. We look forward to continuing working with you on the Shearer Cottage application.

Kind regards,  
Eric Van Allen
