June 8, 2022

To the Martha’s Vineyard Commission,

I am writing to voice my support for the Island Autism Center. The proposed Center will provide housing for 14 individuals with autism and aid in keeping families with autistic children together on Martha’s Vineyard.

The Center will be the first intensive needs housing on our island and add stock to our affordable housing goals. In addition to providing housing for those with autism, the Center will provide job training, day programs, visiting specialists and community involvement in farming and other local endeavors.

It is for these reasons that I want to support the Center and I ask the MV Commission to do the same.

Thank you for your consideration.

Sincerely,

Russell Maloney
