To: Alex Elvin <elvin@mvcommission.org>;

As a previous owner of the Mill House for 50 years I am writing to the Commission to ask that you do not permit the demolition of this house that again, like the Mill House, represents a part of Vineyard history. Little by little it seems that the island's architectural history is being eaten away as beautiful old family homes are ending up being crushed by heavy machinery.

I have just read through the numerous articulate letters opposing the loss of the Edwin Luce House. There are many good reasons stated and heartfelt objections to the current owner's desire to build anew instead of restoring. I wish simply to voice my agreement with all of those letter writers. The loss of the Mill House was for my family heartbreaking even though we no longer owned it. May this not be repeated once again.

Respectfully yours,  
Margaret Snow
