Dear Commissioners,

The Mill Brook Watershed Management Committee appreciates the opportunity to comment on the proposed artificial turf athletic fields at the Martha's Vineyard Regional High School. We want to reiterate the concerns listed in the letter from the West Tisbury Conservation Commission.

In particular, due to the potential to negatively impact our watersheds, we are opposed to artificial turf athletic fields. We support natural organically managed athletic fields, as these are the best option for the health of our single source aquifer and coastal ponds.

Sincerely,

The Mill Brook Watershed Management Committee
