

Town of Oak Bluffs

DRI: 659-M North Bluff Modifications

Revisions to Plans and Responses to MVC Questions

November 9, 2022

In response to comments made at the 11/3/22 MVC Public Hearing, the Town has revised its plans to change the 6 spots at the northernmost parking lanes (closest to the ferry docks) from Active Pickup/Dropoff to Taxi Stand. The spots by the traffic oval island will be changed to Active Pickup/Dropoff.

Responding to comments at the hearing about the favoring of 15 minute parking over longer-term parking, the Town has revised its plans to change the 6 spaces at the traffic circle near the boardwalk entrance from 15 minute parking to 4 hour parking. This change will also reduce the amount of backing-up motions of cars into the traffic circle during busy times.

These changes have been recorded in the updated documents “North Bluff Traffic and Parking Diagrams 11-9-22” and “North Bluff Design Drawings 11-9-22”, attached.

All the 4 hour, 2 hour, and 15 minute spaces in the plan will be available as overnight spots for commuters, by permit. This continues the existing parking regulations for the area.
