Subject: Oak Bluffs North Bluff Sea Wall Project

To the Martha's Vineyard Commission:

Please take a good hard look at the proposal to sheath the North Bluff Sea Wall in metal.

We are grateful for the protections of the Martha's Vineyard Commission and very much appreciate your review of this issue.

The Vineyard is very special to us and my husband and I are frequent visitors. We love the beautiful approach to Oak Bluffs and will grieve if it becomes a more urban landscape and seascape.

It would be a terrible loss to have the little beach there disappear.

Thank you for your consideration.

Sincerely,

Heide Signes=
