Subject: North Bluff Sea Wall Project DRI #659"

I recently saw the pictures of what is being done in Oak Bluffs and I have to say I am appalled! It is so ugly! My family has been going to the island for over 60 years. I still continue to go with my kids because of it's beauty and simplicity. I love the beaches and the natural landscaping. As I kid I would walk with my brothers along that concrete walkway from the Island Queen to the Oak Bluffs pier, take off my shoes and go down to the beach and skip rocks or swim while watching the boats. These are such simple things that are found at MV that make it so special. Please do not ruin that!!! I want future generations of my family to experience this.
Thank you for your time.
