Subject: North Bluff Sea Wall project

Mr Foley,

You received Richard Seelig's email. Why does it make so much sense to me and many Oak Bluffs residents (summer in my case) but NOT to the Conservation Commission? Why are the Select people "confused" about to whom they should side? Why are these two groups marching to some phantom drummer? Oak Bluffs, ConCom, Select board is very nonchalant about any part of town that has the word "beach" in it.

Something is very wrong! NO beach project in OB has worked. Incompetence. We just go around and around - they throw stuff against the wall and hope it sticks. Crazy. Our ideas and suggestions are regularly ignored because the ConCom thinks it knows everything. I think they are lax and stale.
