Thanks, Patrick. Has it also been confirmed that the buildings at 128 and 124 Upper Main will be all-electric? I remember there was a discussion about using heat pumps at the 11/5 hearing, but I'm not sure if we have anything in writing.

Alex

Hi Sean,

The commission had a few follow-up questions related to the proposed pool at 124 Upper Main:

(1) will the pool be heated; (2) if so, what fuel source will be used; and (3) what period of the year will the pool be open to guests.

If you could provide a written response next week, I will share with the commission.

Thanks,

Alex
