To: Alex Elvin <elvin@mvcommission.org>;

Alex,

The panels will be wired to the house meter, meaning that the benefits will be shared by the owners of the units in proportion to their condominium percentages.

Thanks. Can you also provide a description of how the energy and credits from the panels will be distributed among the condo owners? This was requested by LUPC.

Subject: Stone Bank Solar

Alex,

As requested at last night's LUPC meeting attached are sketches showing the location of solar panels to be located on Building B (formerly D-1)
