Subject: Squibnocket public record

Hello—I attended the hearing at the Chilmark Community Center last week. I feel compelled to respond to a comment from a member of the audience: "If you ask an engineer for a solution, you get an engineered solution." The committee which studied this issue (of which I was a member) heard from many people during our information gathering and review. I believe the report by Epsilon Associates was instrumental in our recommendation. Lester Smith, our main contact at Epsilon, is a coastal geologist/environmental scientist with more than 30 years of experience in the environmental field. Please read the report from Epsilon as you deliberate. Thank you. Allison Burger Chilmark
