Hello Adam

Hope all is well. I understand the Tisbury Planning Board received a Form A (Plan not Requiring Subdivision Approval) for a division of land to create a separate lot so that Vineyard Wind can purchase the proposed "leased area" outright. This essentially expands the Applicant's interest in the land to owner with exclusive rights of the area approved by the MVC for this project. I believe this should be viewed as desirable as to clearly delineating functions/activities, permits and approvals, and lines of communication for this segment of waterfront between Packer Marine Terminal and Vineyard Wind going forward. I understand this is an automatic or mandatory referral to the MVC. If there is anything the Select Board or I can do in support of moving this along expeditiously, please let us know. As with everything, it is time sensitive as to implementation of the project from a business, permitting and statutory perspective.

Are there any dates that I can announce in conjunction with the re-appointment of Greg Martino this evening as the Select Board representative to the MVC? The Select Board meets at 5PM.

Sincerely,  
Jay
