The plan as it appears should meet the site access requirements. George Sourati came into visit with these plans and we discussed this in detail. All approvals will be based on a Tier 1 fire protection plan reviewal.

Thanks,

Greg

**Subject:** Vineyard Wind building emergency access

Hi Greg,

The MVC is reviewing the proposed Vineyard Wind maintenance building at 69 Beach Road (formerly 61 Beach Road), and we would appreciate your input as to whether the plan satisfies emergency access requirements. I'm attaching the latest site plan and elevations here, and the complete file for the project is available at the link below. Let me know if you have any questions.
