

Vineyard Golf Club  
Turf Maintenance Center  
Housing Proposal

The Vineyard Golf Club currently has employee housing capacity for 42 individuals located on the southeastern corner of our property split amongst the existing dorm and duplexes. In addition to this existing housing, we are proposing to add 9 additional beds to our Turf Maintenance facility located in the center core of our property. As part of the Turf Maintenance facility renovation plan, the 9 additional beds will be utilized by year-round and seasonal staff alike primarily affiliated with our Turf Maintenance employees.
