

Water Core Group

Minutes 20 March 2007 **FINAL**

Present: Terry Appenzellar, Melinda Loberg, Mark London, Wendy Culbert, Bruce Rosinoff, and Bill Wilcox

The group reviewed the Draft document summarizing the status of our thinking on the four priority goals that were identified early on. Numerous edits were made and are being re-worked. They will be distributed by email to the Core Group by Friday.

The section that summarizes the current wastewater management should be emailed to Health Boards for input.

It was suggested and agreed that the initial draft document would be cleaned up and emailed to the Core Group for review prior to the next meeting (April 3). Shortly after that meeting the Draft will be revised and distributed to the larger Work group and to members of the Water Alliance.

The plan is to have a joint meeting of the Work Group and the Alliance at their May meeting. At this meeting, the goals and our identified strategies would be presented and discussed and we would seek input to help identify other strategies.

**The next meeting is Tuesday, April 3 at 12:00 at the MVC Offices.**
