Dear Richard Bourre, and Mark london,

The idea of expanding the available dock space in oak bluffs has always been on my mind, ever since my grandfather, Bill Correllus, took me out fishing and entered me in the children's fishing derby. I enjoy fishing and think that this project will increase the amount of people who participate in the annual fishing derby. Few people can afford boats and would like to participate in the derby so this dock would increase the number of entries and the amount of money that would be put into scholarships and given back to people of this community. Tourists and local alike will come to this new area and stroll, fish, and observe the beautiful oak bluffs area. Everyone knows that this island benefits from tourists and their business; if this dock is expanded more people will be able to participate in the derby, from land, like i have in the past years. I hope you will consider my experiences and my views on how this will benefit the town and its people alike.

Sincerely yours,

YMCA of MV camp counselor and Fishing derby participant, Amanda Correllus
