

Town of Gosnold - Elizabeth Islands Chain

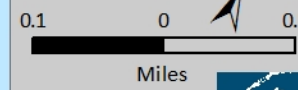

Effective Flood Boundaries

Cuttyhunk Island - Gosnold, MA

These flood boundaries are the most recent delineations adopted by the Town in 2016. FEMA regards these data as 'effective' as of July 2016.

Compiled By: Martha's Vineyard Commission, CL Seidel, 9/15/16, ph. 508-693-3453, www.mvcommission.org
Data: Flood Boundary - FEMA Effective 2016; Roads - MassDOT/MassGIS 2014; Parcels - MassGIS 2016
Projection: Stateplane, MA Mainland, NAD83, m; File: cls_basics; gosnold_effFlood_par_2016.mxd - Original in color

	Land
	Parcel Boundary
Flood Zones	
	100 Year (VE Zone)
	100 Year (AE Zone)
	500 Year Zone

NOTES:
The 100 year & 500 year flood areas represent a subset of the data available on the paper Flood Insurance Rate Maps -FIRM as provided by the Federal Emergency Management Agency (FEMA). These data were developed by FEMA to support floodplain management and planning activities but do not replace the official paper FIRMs. These data are not suitable for engineering applications or site work nor can the data be used to determine absolute delineations of flood boundaries. Instead the data should be used to portray zones of uncertainty and possible risks associated with flooding. These data do not replace the paper FIRMs which remain the official documents.
