Acknowledgments

The Martha’s Vineyard Commission would like to thank the following organizations that contributed their time and knowledge to this report.

Adult and Community Education of Martha’s Vineyard
Barnstable County Department of Human Services
Cape Cod Chamber of Commerce
Cape Light Compact
Community Preservation Coalition
Dukes County Associate Commissioner for the Homeless
Dukes County Regional Housing Authority
Dukes County Social Services Department
Edgartown Historic District Commission
Emsi
Island Housing Trust
Island and Gosnold police departments
Island water departments
Martha’s Vineyard Airport
Martha’s Vineyard Association of Emergency Medical Technicians
Martha’s Vineyard Charter School
Martha’s Vineyard Community Services
Martha’s Vineyard Donor’s Collaborative
Martha’s Vineyard Hospital
Martha’s Vineyard Land Bank
Martha’s Vineyard nonprofits
Martha’s Vineyard Refuse Disposal and Resource Recovery District
Martha’s Vineyard Regional High School
Martha’s Vineyard Shellfish Group
Martha’s Vineyard Steamship Authority
Massachusetts Bureau of Geographic Information
Massachusetts Clean Energy Center
Massachusetts Division of Local Services
Massachusetts Division of Marine Fisheries
Massachusetts Housing Partnership
Morning Glory Farm
National Oceanic and Atmospheric Administration
Oak Bluffs Highway Department
RE/MAX on Island
Town building, health, shellfish and wastewater departments;
town accountants, administrators, clerks, tax collectors
Tribal Housing Authority
Vineyard Committee on Hunger
Vineyard Transit Authority
Wampanoag Environmental Laboratory
UMass Donahue Institute
US Bureau of Economic Analysis
US Bureau of Labor Statistics
US Census Bureau
Introduction

Methods

Population and Demographics

Historic population counts: Towns, county, Island, 1930–2010
Peak summer population estimate: Island, 2016
Population density by town, 2010–2017
Population density: Town comparison, 2017
Population: County comparison, 2017
Population projections by town, 2015–2035
Births per town, 2007–2017
Crude death rate and deaths per year: County, 2000–2016
Gender by age group: County, 2010–2016
Population by age group (percent of total): County, 2010–2016
Elder age distribution by town (percent of population), 2016
Elder income by age group: County, 2015
Elder population projections: County, 2010–2060
Percent of population 65 and older: 2035 projection by town
Racial and ethnic diversity: County, 2010–2016
Racial and ethnic diversity by town, 2016
Citizenship status: County, 2010–2016
Registered voters per town, 2007–2017
Geographic mobility by town, 2010–2016

Land Use

Land and water acreage per town
Watershed acreage: Island, 2017
Developed and undeveloped acres per town, and percent of total
Acres of open space per town, 2018
Acreage of beach-frontage parcels with public access by town
Protection and access to open space: County, 2018
Official road centerline mileage: All roads, 2017
Miles of VTA bus routes per town
Miles of special ways by town, 2018
Farm acreage by type and town
Miles of special ways by town, 2018
Miles of trail by town
Single-family building permits issued by town and year, 2010–2016
Total number of parcels per town, 2003–2017
Parcel counts by year and use: County, 2003–2018
Number of structures per town
Historic buildings by time period; number of buildings in national and local historic districts: By town
Average and median lot size, residential area, and building area by town; various years

Economy

Economic overview, including cost of living and gross regional product: County, 2017
Total full- and part-time employment: County, 2006–2016  20
Labor force, employed, unemployed, unemployment rate:
  County, 2017 (monthly)  20
Seasonal unemployment rate: County, 2010–2017  21
Unemployment rate: County comparison and ranking, 2010–2018  22
Inflow and outflow of workers: County, 2011–2015  22
Median household and family income and benefits by town, 2010–2016  23
Median household income: ranking by town: 2010, 2016  23
Income per capita (towns), 2010–2016  24
Income inequality (Gini index) by town, 2010–2016  24
Net resident earnings: County, 1970–2016  24
Median earnings in last 12 months by town, 2010–2016  25
Median earnings by gender: County, 2016  25
Net earnings by place of residence: County, 1990–2016  25
Establishments, employees, payroll by industry: County, 2006–2016  26
Industry rankings (civilian employed population 16 and over): County, 2016  26
Top six industries by town (percent employed), 2016  27

Selected Industries  28

Agriculture
Farm employment, income and expenses: County, 2001–2016  28

Blue economy
Blue revenue, businesses, employees: County comparison, 2016  29
Blue economy as percent of total revenues, employees, businesses:
  County comparison, 2016  29
Dark and medium blue revenues: County, 2016  29

Construction
Wages and average monthly employment: County, 2005–2017  30
Wages by sub-industry: County, 2012–2016  30

Finance and real estate
Wages and average monthly employment: County, 2005–2017  31
Finance and insurance
Wages by sub-industry; average monthly employment: County, 2011–2017  31
Real estate and rental leasing
Wages by sub-industry; average monthly employment: County, 2011–2017  31

Health and education
Wages and average monthly employment: County, 2005–2017  32
Healthcare and social assistance
Wages by sub-industry; average monthly employment: County, 2011–2017  32
Education
Wages by sub-industry; average monthly employment: County, 2011–2017  32

Landscaping (services to buildings and dwellings)
Wages and average monthly employment: County, 2005–2017  33

Leisure and hospitality
Wages and average monthly employment: County, 2005–2017  33
Wages by sub-industry: County, 2012–2016  34
Membership associations and organizations
Wages and average monthly employment: County, 2005–2017  33
Wages by sub-industry, 2005–2017  34

Public administration
Wages and average monthly employment: County, 2005–2017  34
Wages by sub-industry: County, 2012–2017  34

Tourism
Domestic travel expenditures, payroll, tax receipts: County, 2012–2016  35
Domestic travel expenditures and payroll, tax receipts, employment; employment rate: County comparison, 2016  35
Domestic travel-generated employment and employment rate: County comparison, 2016  36
Domestic travel expenditures, state taxes, employees, payroll: County comparison, 2016  36

Commercial fishing
Value of finfish, groundfish and invertebrate landings in Dukes County, 2006–2016  37
Value of shellfish landings in Dukes County, 2006–2016  38

Nonprofits
Revenue and assets: Island, 2014–2016  39
Selected industries: Seasonality (employment) in Dukes County, 2012–2016  40
Average annual employment (all NAICS sectors): Dukes County, 2017  40

Health and Education
County health rankings: County, 2018  41
Health trends: County (various time ranges)  42
Number of arrests per town, 2007–2017  43
Arrest rate by town, 2016  43
Lyme disease cases: County comparison, 2000–2015  43
Lyme disease rates: County comparison, 2015  43
Opioid overdose deaths: County comparison, 2000–2016  44
Opioid overdose death rate: County comparison, 2016  44
Homelessness: County, 2015–2018  45
Martha’s Vineyard Center for Living and Serving Hands food distribution: County, 2013–2017  45
SNAP participation by town (percent of population), 2010–2016  45
Martha’s Vineyard Community Services: Services provided in 2017  46
Martha’s Vineyard Hospital inpatient discharges and emergency visits, 2010–2018  46
Martha’s Vineyard Hospital’s 2016 Community Health Assessment and Implementation Strategy (selected tables and charts)  47
Educational attainment by town, 2016  49
Adult education enrollment: Island 2009–2018  50
School enrollment by Island school, 2007–2017  50
Enrollment by gender (percent of school), 2017–2018  51
Selected populations (percent of school), 2017–2018  51
Plans of high school graduates (percent of students), 2016–2017  51

Housing and Real Estate
Occupied housing units by town, 2012–2016  52
Occupied housing units (percent of total), 2012–2016  52
Transportation

- Passengers, automobiles and trucks carried to and from Martha's Vineyard, 2007-2017
- Cars parked at the Woods Hole, Falmouth and Cataumet lots
- Number of excursion vehicles by month and year: Martha's Vineyard, 2007–2017
- Other licensed ferries: Monthly passengers, 2007–2017
- Total ferry passengers (SSA and non-SSA), 2007–2017
- Enplanements by airline, 2017
- Annual passenger enplanements, 2010–2017
- Airport operations, 1997-2017
- Registered vehicles by town and type, 1990–2015
- Vehicles per capita (towns), 1990–2015
- Vehicle crashes: County, 1990–2016
- Average crashes by town, 1990–2016
- Official road centerline mileage: All roads, 2017
- Miles of VTA bus routes per town
- Miles of shared-use paths per town, 2018
- Vineyard Transit Authority ridership by month and year, 2007–2017

Energy and Environment

- Floodplain area (land only) by town, 2016
- Buildings in FEMA floodplain and percent of total, 2016
- Mean sea level (rising trend), various years up to 2017
- Sea level rise: Projected scenarios for Oak Bluffs, including subsidence: 2020–2100
- Annual mean, mean maximum and mean minimum air temperature; total precipitation and snowfall (with trendlines): Edgartown, 1997–2017
- Number of days with snow depth greater than 1 inch: Edgartown and Boston, 1997–2017
- Temperature and precipitation change: 20-year trend: Edgartown, 1997–2017
- Ozone level exceedances: Island, 2004–2017
- Enterococci levels by beach, various time ranges up to August 2018
- Coastal ponds: Impairment status and nitrogen limits
- Annual shellfish harvests by town and type (commercial and recreational bushels), 2007–2017
- Martha’s Vineyard Shellfish Group seed production by town and species, 2007–2017
Taxes and Town Services

Total operating budgets by town, 2010–2017
Total operating budgets by town: Percent change, 2010–2017
General fund revenue and expenses: County, 2007–2017
General fund revenue and expenditures by town, 2007–2017
General fund revenue and expenditures: Percent change by town, 2010–2017
General fund revenue by town: Breakdown for 2017
General fund expenditures by town: Breakdown for 2017
Town revenue by source, 2018
Bond ratings by town and agency, 2007–2017
Assessed value by town and class, 2017
Total assessed value by town, 2003–2018
Assessed personal property values by town:
Building, land and other (billions), various years
Single-family building permits issued by town and year, 2010–2016
Tax rates by town and class (per thousand of assessed value), 2018
Personal property, commercial and industrial tax rates, 2003–2018
Average single-family tax bill per town, 2000–2018
Average single-family tax bill and ranking, 2018
Local option rooms tax by town, 2008–2017
Local option meals tax by town, 2016–2018
Community Preservation Act: Approved projects by category, 2001–2017
Community Preservation Act: Approved projects by town, 2001–2017
Community Preservation Act: Local surcharge and state match per town, 2002–2017
Community Preservation Act: Total amounts charged by town and distributed by state as of 2017
Community Development Block Grant awards 2006–2018

Appendix A: Maps
Appendix B: Commercial fish landings and other species

Glossary
Introduction

A commercial fisherman hauls his final lobster pot of the morning. Kids step off the bus and find their way to homeroom on the first day of school. Another town meeting is called to order and residents argue over the annual budget. Two cars collide at the Five Corners. A summer resident turns out the lights and heads to the ferry in September.

Life in Dukes County never ceases, and neither does the constant record keeping that aims to keep track of it. In logbooks and spreadsheets, on the backs of receipts or called in over the phone, the numbers add up all year, but relatively few people ever see them. This report aims to change that by collecting as many of those numbers as possible in one place and sharing them with the public. It is intended as a resource for towns, residents, businesses, nonprofits and others as they plan for the future, reflect on the past and navigate the present. Front to back, it tells something of a story in numbers, but we also invite you to flip open to any page and begin exploring the data.

As with the morning lobsters and the kids on the bus, statistics seldom stay put, so we plan to update this report every two years, using the latest figures from a variety of sources.

Some highlights in this edition include an Islandwide accounting of nonprofit assets and revenue between 2014 and 2016; and a tally of Community Preservation Act projects since 2001 (along with the annual state matches that have declined considerably over that time). We also present long-term data related to weather and climate that shows increases in rainfall and mean temperatures that exceed the regional trends, and 10-year data sets tracking the value of commercial fish species landed in Dukes County.

This report does not aim to answer all the questions that might arise from the data, but we hope it serves as a starting point for discussion and further planning (and record keeping). We welcome any feedback you may have that will help us improve future editions. Comments may be sent to Lucy Morrison at morrison@mvcommission.org, or the following address:

All of the numbers in this report were freely obtained and most were publicly available. To help ensure accuracy, we cross-checked information from multiple sources, sought guidance from public officials, statisticians and others, and wherever possible relied on local agencies that collected the data themselves.

What resulted is something of an eclectic portrait of Dukes County, highly detailed in places and more impressionistic in others. The report generally stops short of assigning cause and effect to apparent changes over time, but does point out some key trends, and describes weaknesses and anomalies in the data. In most cases, we apply the same parameters to each Island town (and occasionally to other counties and the state as a whole), for broader context.

Much of the data relies on the American Community Survey (ACS), which is administered by the US Census Bureau and provides annual estimates related to various topics and geographies. Unlike the 10-year Census, which in principle tallies every resident in the United States, the ACS is based on sample populations, so the results typically include a margin of error. The data are more accurate at the state and county levels, and somewhat weaker for smaller towns. But they also provide a consistent measure over time, and among towns and counties, which makes them useful for comparison and as a statistical baseline.

The topics here generally cover the years 2007–2017, with variation according to reporting schedules and the availability of data. The American Community Survey, for example, operates on a roughly two-year delay, with its 5-year estimates for 2017 now available online. In some cases, changes in reporting or classification methods at the local, state or federal levels have led to blips in the data over time, which we make an effort to point out. Altogether, we cite data from 70 different sources, including Island towns and organizations, state and federal agencies and other groups.

Despite its limitations, public data offers a wealth of insight into the workings and diversity of Dukes County, and we believe the selections we present here provide a solid foundation for better understanding our past, present and future.
