Martha’s Vineyard Statistical Profile
February 2019
Appendix A: Maps (part 2 of 2)

Major Watersheds of Martha’s Vineyard 109
Road and Bus Network on Martha’s Vineyard 110
Shared-Use Path Network: Martha’s Vineyard 111
Trails and Special Ways: Martha’s Vineyard 112
Waste Disposal: Dukes County 113
Water Resources: Martha’s Vineyard 114
Water Table Elevations: Central Outwash Plain 115
West Tisbury voters in 1982 agreed to purchase a 250-acre property known as the Margaret K. Littlefield Greenlands, just north of the state forest, as a potential water supply in case private wells someday fall short of demand. According to a management plan for the property, other Island towns may be granted access if they have exhausted all other supply options. But the towns have yet to fully discuss that possibility.
Figure 6. Water-table configuration on October 26–30, 1991, surficial geology, and location of modeled area, Martha’s Vineyard Basin, Massachusetts.
